The deceased, a very pretty lady of 10 or 20 years of age, had been in delicate health for about three years. By constantly thinking of her condition, she persuaded herself that she would never be well again, and lest hope. With the less of hope came fregreat spells of mellancholy, which increased, until her mird became impaired. Then the lea of self distruction took possession of her. for months at a time she was as sone and as lay as her young companions, but the was was requestly urged and admonished by her mother and friends to go into lively company, but she seldom left the house. About nine a clock Saturday morning she handed her mather a tumbler containing some arsenie, with which she said that she intended to take her life, but that it would not mix. Her mother threw the arsenic on; and thinking that was the last of it, went out, leaving the young lady to charge of her ount, with the injection to watch her closely. Her anat performed her daty fathfally, but by some unknown means he found an opportunity to take a dose of the atal pason she had concealed somewhere about her person. As soon as it was found out that the had taken the poison physicians were sent for. Dr. Stabler arrived first, and Dr. Brown shortly afterwards. The usual remedies were resorted to but without effect, and the un-fortunate young lady breathed her last, as stated above, about a quarter to ten leaving a widowed mother, who is prostrated by the blow, and a brother and several sisters a moure their loss. COUP, THE "GIANT SHOWMAN."-W. C. Coup and his "New United Monster Show," arrived early yesterday morning by his own soccial trains of forty cars. The entire para phranalia was removed to the place of exhibition in such a quiet and orderly manner that but few of our cit zins were aware that one of the largest and most complete traveling entertainmenes in America had arrived in the city. This is Mr. Coup's first visit to Alexandria and yet he does not come a stranger. For two seasons Mr. Coup has exhibited at Washington, and the immense success that attended his efforts to amuse and instruct the public have induced him again to exhibit in that city, making three con scentive seasons which is something no other how has ever attempted and is positive proof that a meritorious canvas exhibition is fully appreciated by a discriminating public. Many of one citizens wil remember his triumphant sacorsa last season. Hundreds were unable to gain admission. In his proclamation to the public Coup boldly declares that his "new united shows," for the sea-on of 1880, is the crowning effort of all his gigantic amusement enterprises. The New York Hippodrome, Gilmore's Garden, and the New York Aquarium, are all emenations of his fertile brain.
